CALL FOR PROPOSALS

Green Climate Fund (GCF) Climate and Health Project - Consultancies

The Green Climate Fund (GCF) Climate and Health Project (April 2025 –March 2030) is a five-year initiative designed to strengthen climate-resilient health systems in Malawi. The project will generate evidence on the cost-efficiency and feasibility of operationalizing an integrated, multi-pronged climate-resilient health system to inform national scale-up. Implementation is anchored in a tripartite partnership between Save the Children Australia (SCA), Save the Children International – Malawi (SCI MW), and the Ministry of Health (MoH). SCA serves as the Accredited Entity, responsible for fiduciary oversight and compliance with GCF policies and procedures. Subsidiary agreements will be established with the three Executing Entities: MoH (implementing entity), SCI MW (implementing and in-country channelling entity), and Save the Children UK (international fund channelling entity). Delivery will be supported by two procured partners — Catholic Health Commission of Malawi (CHC) and Creative Centre for Community Mobilisation (CRECCOM)—operating across all six target districts. CHC will lead community-level interventions under Outcomes 3 and 4, including treatment of climate-related diseases, climate-resilient WASH promotion, and nutrition support for vulnerable households. CRECCOM will manage mobile health units and facilitate community training and rollout of the integrated climate and health Early Warning and Response System (EWARS). Both partners will serve as sub-grantees to SCI MW. The project builds on existing government initiatives, including climate-health EWARS (with WHO) and climate-adaptive agriculture programming (with WFP), while piloting scalable innovations to enhance health system resilience.

Save the Children International in **Malawi** under the Green Climate Fund (GCF) Climate and Health Project is inviting submissions of proposals for:

Consultancy to Develop a Climate-Informed Procurement and Supply Planning Methodology for Essential Health Commodities in Malawi.

Detailed technical specifications are included within the Terms of Reference (TOR) document.

If you are interested in submitting a bid, please contact the Supply Chain Department at the following address kondwani.chilombo@savethechildren.org to express your interest and request the Terms of Reference and the ITT which will be sent to you in return. In your email, be specific on which consultancy you are interested in.

Eligible bidders meeting all stated requirements are requested to adhere to the following when applying:

- Submit Technical & Financial Proposals and the Invitation to Tender document as separate documents through one email clearly marked **"GCF- Consultancy-Specify Name of Consultancy"**.
- The technical proposal should include well detailed approach to the research in line with the terms of reference.
- The technical proposal should also include copies of legal registration, tax registration tax clearance, CVs and relevant certificates.
- Provide a timeline/work plan for conducting this study in line with the terms of reference.
- Supporting documents such as CVs (attached as appendices) and two sample reports from previous assignments done with other organizations (attached as appendices).
- Submit applications electronically with subject title. Physical submissions will not be accepted and information on scanned documents should be visible, not blurry.
